Now completing physicals for the 2019-2020 sports season!

Any physical completed after April 15, 2019 will complete the MHSAA requirement for the 2019-2020 season. Get ahead of the game and get your physical completed!

Services at the Gaylord Blue Devil Wellness Center include a comprehensive yearly physical exam. This thorough physical exam is an important part of health maintenance for students of all ages. Along with the physical examination, we include:

- Vision and hearing screening
- Hemoglobin and/or cholesterol levels if indicated
- Height, weight, and blood pressure measurements
- Review of behavior choices and impact on health

**This annual health maintenance exam fulfills the MHSAA sports physical requirement for school sports participation.**

The Gaylord Blue Devil Wellness Center is committed to the overall health and well-being of the youth in our community. We offer many services at no out-of-pocket expense, including physicals, immunizations, sick visits and mental health services. Your ongoing support and patronage to our clinic allows us to continue to offer these important services.

No one is denied services due to an inability to pay and there are no out-of-pocket charges. If a child has health insurance, the plan will be billed. If a child has no health insurance, the fees are based upon a sliding scale based upon the student’s income. Since most children have little-to-no yearly income, they are not charged for services at the health center. This sliding scale fee also applies to co-pays and deductibles, meaning you will not receive a bill for our services.

Your child or family may be eligible for free or low-cost insurance through MIChild, HealthyKids, the Healthy Michigan Plan, or the Health Insurance Marketplace. Please see enclosed brochure. We have enrollment assistance available if needed. Please contact the Gaylord Blue Devil Wellness Center for more information or for help completing the applications. To learn more about the Health Insurance Marketplace, visit healthcare.gov.

The Child and Adolescent Health Program is operated by the Health Department of Northwest Michigan, with major funding from the Michigan Department of Health and Human Services and Michigan Department of Education.
